

9/15/97

# M.G.D.S.A. UPDATE

An informal meeting will be held at Chicagoland on Friday, November 21, 1997 at 9:00 P.M. There will be a presentation by Dick Bueschel on Cast Iron Machines. And we are also planning on a "Show and Tell" presentation. There will be soft drinks and beer served so plan now to attend and get a chance to meet other members of our organization and have some FUN learning about our hobby.

The first Newsletter will be published in January, 1998. I would be interested in any ideas for articles to publish. We will also be editing a "Buy" and "Sell" column. If you would like to place an ad (no more than 30 words) just send them to me, Frank DeMayo, at 1511 Holliston Trl., Fort Wayne, Indiana 46825. Articles and Ads must reach me no later than 12-1-97.

The Mechanical Gambling Society of America's membership is currently 40 and growing. As members we need to think about where the hobby is, where it should be, and how to get there. We have a lot of well known collectors in this organization to date and I feel they, like me,

would like to see more interest in the hobby. All of us need to get out there and promote our Club. "New" collectors and sharing knowledge is the key to our survival.

We have had great coverage regarding the development of our Club from the hobby magazines. Listed below are some that should be of interest to you and a must for the serious collector:

COIN DROP INTERNATIONAL

# NEWSLETTER

## CHICAGOLAND SUBMITTED BY PAUL HINDIN

Special days mean different things to different people. November 21, 1997 will long be remembered for two reasons. It was the opening day of the world famous Chicagoland Slot Machine and Jukebox Show and it was the beginning of a new era - the first meeting of the M.G.D.S.A.

The room was at maximum capacity. In fact, quite a few people were in the hallway due to the great interest in the club and the excitement about hearing the keynote speaker.

Frank DeMayo opened up the meeting with a warm welcome and some words of wisdom. He discussed the upcoming quarterly newsletter and asked for suggestions regarding contributions of articles, new ideas, finds and ads. This is your club - its success depends on you. If you have any thoughts, please fax them to Frank at 219-484-8605.

The excitement in the crowd was overwhelming. All day people were talking about the fact that Dick Bueschel would share his wealth of knowledge with us. Needless to say, Dick didn't disappoint anyone. The topic at hand was cast iron gambling machines. Dick shared with us the fact that the first machines were designed to use a coin and weight system. Unfortunately, shortly thereafter, slugs were introduced. They immediately became the #1 enemy of the coin operated machines. History shows us that the next generation of machines used the clockwork mechanism. This invention and others allowed pioneering inventor, Charles Fey, to develop the first slot machine. His system, intro Lund positive action, allowed a coin to generate something which in turn caused something else to occur. This was a real beginning of the first slot machine that eventually lead to the slots that built Las Vegas, Nevada. Dick noted that the only problem with the slot machines was that more people

had hernias moving them. They are "darn heavy". Finally, Dick entertained us with some fantastic stories of unusual finds over the many years he's enjoyed the hobby. Those finds took Dick all over the country. His finds included Clawson Machines to slots, but the most important find was the wonderful friendship of the many people he was blessed to meet. He summed it up as a lot of work, a lot of time, but most importantly, a lot of fun.

The next speaker was Tom Gustwiller, author of "For Amusement Only". Tom spoke about the unfortunate but real problem of fraud in this hobby. Just remember, if it sounds too good to be true, beware. Tom shared some of his bad experiences over the past few years with people who tried to take advantage of him. Tom closed the meeting by letting us know the next meeting of the M.G.D.S.A. will be held Friday night, April 17, 1998 at Pheasant Run. The speaker will be Marshall Fey. The subject will be Charles Fey - his life.

---

### KEEP ON LOOKING by John Carini

In November, 1997, I received a post card from a man, who had a old peanut machine for sale. He said his son took it apart 35 years ago to clean it. But he could not put it together again.

According to what the man told me, over the phone, I knew the machine was old. When I went to pick up the machine I was in shock - - It was a 1905 Freeport Dragons Peanut Machine. What a find !!  
So Remember - - KEEP ON LOOKING !

---

## CLUB UPDATE

BY FRANK DE MAYO

NEWSLETTER NO. 1 JANUARY, 1998 -----

Well, we're right on schedule. When we started this idea of a National Coin-Op Club I was very optimistic. Right now, I'm very excited about our progress. If we all really give some time and effort in the coming year, I think we all will be pleased.

What I need is: INFORMATION, BUY, SELL, and TRADE ADS or if you do anything in the service area, we will print it! I have made a commitment to make this club a success and I need a commitment from each and every one of you to contribute something, no matter how small, to this effort. So if you have any ideas or information that might be of interest to your fellow club members just send them my way.

Our membership is closing in on 150 -- but we ALL need to get out there and put the word out about our club!

Our next get together will be "Spring" Chicagoland. We have secured a larger room and hope to have, from you, more "Show & Tell" items - a small auction, sale, or whatever. We have a commitment from Marshall Fey, the Grandson of the Great Charles Fey, to speak about his Grandfather and his knowledge, first hand, of the life and times of Charles Fey. It should be awesome!

Ken Rubin did a great job with the name suggestions for our Club. I'm hoping he will help us by heading a committee on the design of an "Official" "Badge for our Club. Right now C.O.C.A. (Coin Op Collectors Association) has a commanding lead. C.O.C.C. (Coin Op Collectors Club) is 2nd, and 3rd is C.O.C.O.A. (Coin Op Collectors of America). There is a form in this Newsletter to give you the opportunity to vote for your choice. If you haven't sent in a vote - do it now. We plan to vote on a name from the "Top 3" at the Spring Meeting.

The 1st meeting in Chicago in November, 1997 was unbelievable. If you weren't there you missed a "Classic" Dick Bueschel, at his best, speaking to the people who appreciate all he has done for the hobby. There was a video taken of his speech and I am trying to find out if we could get it and make some copies.

Rosanna Harris of "Coin Drop International" gave our meeting great coverage in her Jan-Feb issue. If you don't subscribe, I urge you to do so as soon as possible - and maybe she will send you this "Classic Issue". I have included below the information so all you have to do is send it or fax it - - Do It Now!!!

## COLLECTOR ALERT

By Frank DeMayo

On Wednesday, July 9, I was sitting in my office when I received a call on our 800 line. The gentleman asked if I had an ad in a collector magazine and I told him yes. He said he had 8 Mills or Miles machines, he wasn't sure what was the correct pronunciation. He went on to say that he was involved in an estate where the man & wife had recently deceased. His concern was that he had to remove these machines and a number of other things he acquired from the estate. When he said that, I began to think, "This is it!" So, I asked him what other items were involved. He said there was a 9' pool table with inlaid wood and it was very old. He also mentioned there were 3 one armed bandits.

When I asked him what was the difference from the 8 Mills, he replied that they were much larger with the handle in front and made of wood. "Wow," I thought to my self, "uprights!" He said they were about 5' tall. Now, I was beginning to sweat. I continued the conversation and asked him if there were any music machines in this estate. He said, "As a matter of fact, there are!" He described them as big wooden machines that were coin operated.

He went on to say that he had bought the entire contents of what he called the "game room." But, he again said that he had to remove the items now. He claimed to have \$2000 in the Mills slots and another \$3000 in the rest of the game room. At this point, I became very interested and told him I would purchase everything in the game room. He told me that he would sell all the coin operated machines and pool table for what he had in them. He also mentioned he would be glad to send me the contents including pictures, wall coverings, etc.

The estate was 400 miles away from where he was calling in "Nebraska." He said that he would trust my judgement on the value of the items and we would settle up after the items arrived at my shipping dock. He was glad that I had a shipping dock to make unloading easier because some of the items were quite large and heavy. I could almost not control myself wondering what was in the estate. He then said that he knew of a friend who had a Peterbilt tractor and 40' trailer. He said he would call him and see if he could take the load that very day. I agreed that I would be fair with him since he knew nothing about coin operated devices. His expertise was in antique furniture.

I assured him I would take the whole lot and to call me back as soon as he contacted the driver. When he hung up, I couldn't believe what I had heard! It seemed too good to be true! And I began to visualize what might be there, maybe a Seeburg H? A Violano? About 10 minutes later, he called back and said his friend would be willing to make the trip and would be at my dock in 2 days. The only thing I had to do was pay the driver \$300 upfront and the rest when he arrived. He told me that I would have to wire the money to the driver through Western Union because it would be the quickest. I told that I would do that and asked him for his number so that I could call back. I was still very excited. When I hung up and started to make the arrangements to send the money, I realized this WAS too good to be true. Something told me to call the G-men, Mike Gorski and Tom Gustwiller. I called Tom first and told him about the "deal." He began to raise some questions and I started to think that this might be a scam. I decided to call the other G-man, Mike Gorski, to get his opinion. He wasn't there, but a life size working replica of him was. I told him the whole story and he suggested I call the man back and tell him I had a different idea. I was to tell him that I had a collector friend in his area who could bring cash and also help load all the stuff. This seemed to be a great idea so I hung up and called the man back to tell him the plan.

He first said that it would be great because they could use the help. Then he said that the driver could not be reached at this time and he would prefer that I wired the money as originally planned. I told him that I was apprehensive about this. He said that he understood, but still said wiring the money was the only way the deal could be made. I told him for a deal of this size, he could give the driver the \$300 and I would pay him back \$600 when the truck arrived. He then started to get a little more forceful saying that I should live up to what I had agreed to previously.

At that point, I knew it was too good to be true. His name was, get this, Brian England and his phone number was a Travel Lodge Motel. The truck driver's name was Donald Dockery. Like Hickory Dickory Dock. I told him if this was a real deal that I would pay him twice what he wanted but I would not send the money. He then said if I changed my mind he would be there for another 2 weeks. What happened to I have to remove the stuff immediately!

Just thought I would share this experience with fellow collectors. When a deal seems funny, get some other collectors views.

We will be voting on a name for our club at the Spring Chicago Meeting. Here's a list of possible club names and acronyms submitted by Ken Rubin and other members. Please circle any name(s) that you like or submit any suggestions you might have.
