REV. 10 2017

10/2008

Dear Fellow Collectors,

Our newest catalog (8 and 8A) is in a two-section format. The first section is comprised of reel strips and award cards that Dave and I did over 30 years ago. The pricing for the first part of the catalog is on page 16. The pricing in the first part of the catalog stands on its own pricing and is not to be combined in quantity pricing with the antique style reel strips and award cards. The pricing for the antique reel strips and award cards are in the second part of the catalog, the last two pages, and stand on its own pricing (not to be combined with the first section).

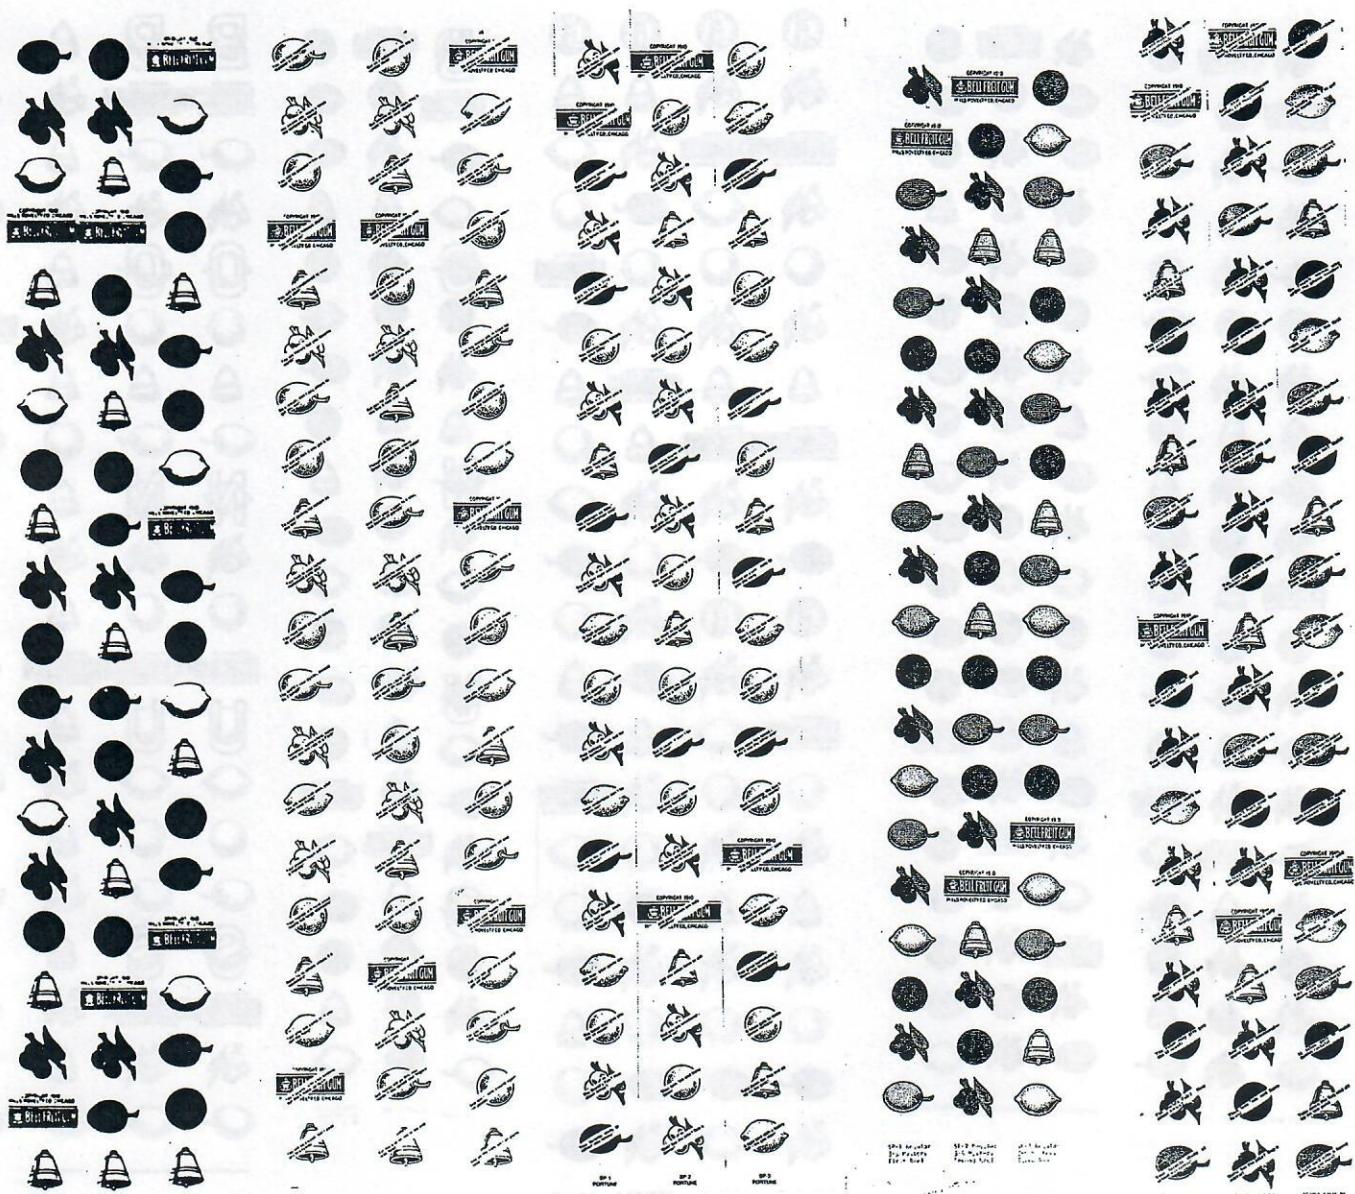

Please take note that some items that Dave and I printed many years ago are no longer available in the first section of our catalog. When these items were depleted I reprinted them in the antique finish, and as time goes on, more and more of the items in the first part of the catalog will be reprinted in the antique finish. If you have any questions regarding pricing, please write.

Sincerely,

Rick Trink

*For additional copies of this catalog, please send 10 first-class U.S. postage stamps.

CC-319

This page includes the most popular strips used on Mills machines of the 1920-1940 era. The Ten Stops, used on all goosenecks and early escalator machines, are available in plain fruit symbols or fortunes, white or buff color. The SP-1 Fortunes also in White or Buff. The Plain SP strips are probably the most used strip for Mills machines of the thirties, and available in White for earlier machines (CC-236) or (CC-536) or Gold (CC-2). The CC-319 Fortune strips is same readout as Mills CC-318 – These are not too common.

(The 10 Stop Plain and the SP Plain are no longer available in Buff.)

The CC-538 and 407's are usually used on later model War Eagles, Brown and Blue Fronts, and early Black Cherries. Occasionally on these later model machines, you might find some variations, so check the discs, they could be marked "B" or "J" -- an will need to be patched. The four strip set of Gold Award Strips will take care of 99% of the gold award machines, but there is a rare one which we have not done, and will not patch. Most Horse Head Bonus machines will have the CC-457 strip on first reel with a CC-407-J2 on second and CC-538-R3 on third. However, there are a few Horsehead Bonus machines with unusual readouts - we cannot accommodate those. The High Top Bonus set includes strips for discs marked BOC-1, BOC-1-B, BOC-2 and BOC-3. Strips on this page are available in Buff, Silver, Gold, plus the CC-538 and CC-207 also available in glossy white. (The CC-407 and Horse Head are no longer available in Buff.)

The 5 strip CH SET is used on most late model Mills with 2/4 payout. It includes the CC-539 and CC-540 strip to save patching. This set is available in Buff, Silver, Gold, Black and Gloss White. The "EJ SET" is used on the Mills 7-7-7 High Tops and includes the EJ-1-B variation. The Wild Deuce is another High Top variation and also a 4 strip set. EJ's and Wild Deuce are on Silver paper only. The last set on this page are the Golden Nugget strips and fit ONLY discs CH-1-C, CH-2-AS, CH-3-A. Black only. Golden Nugget strips not shown are available in Black.
